

The HERMOSA

32' X 39'

Main Floor 1,273 Sq. Ft.

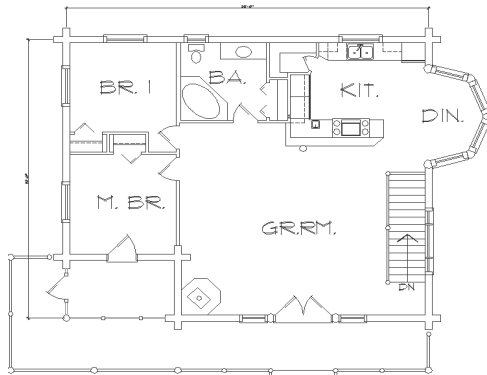

Basement 1,338 Sq. Ft.

At 1273 square feet on the main floor, this home feels surprisingly spacious. A walk-out basement doubles the space and the bedroom wing could easily be extended for larger sleeping areas. The plan could also be scaled down, as it was originally drawn at just over 1,000 square feet.
